GENERAL INFORMATION

REQUISITIONING TELEPHONE SERVICE AND CHANGES THEREIN

In order to facilitate and expedite telephone installations, moves and disconnections DD Form No. 410 Requisition for Telephone Service should be carefully prepared and forwarded thru proper channels to the Defense Telephone Service, Office of the Secretary of the Army Room 1A275 Pentagon Building together with DD Form No. 218 "Telephone Director Listings" to insure accuracy of information and directory records.

This latter Form DD 218 should be submitted separately for any changes in directory listings regardless of whether an installation, move or disconnection of a telephone is involved.

TELEPHONE DIRECTORIES

Requests for telephone directories by employees must be made through the normal supply channels of your bureau.

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Telephones are not to be used by employees for personal messages except in case of emergency. Use pay station located in convenient places on all floors in all buildings. Chief of Bureaus are expected to cooperate in securing strict observance of this instruction and each person having a telephone on his or her desk is responsible for its proper use.

CALLS TO OTHER TELEPHONES IN THE DEPARTMENT OF DEFENSE

Be sure you have the correct number in mind. Consult the directory. Listen for dial tone and then dial the number.

CALLS TO OUTSIDE LOCAL NUMBERS FROM UNRESTRICTED TELEPHONES

Listen for dial tone. Dial 9. Wait for the second dial tone. Dial the desired number. Employees are reminded that telephones are to be used for official business only.

TRANSFERRING CALLS

You may transfer any incoming long distance or direct in-dialing call by signalling the operator. This transfer cannot be made if more than one telephone is open on the line being used. Interoffice dialed calls cannot be transferred. Inter-agency dialed calls cannot be transferred.

MONITORING OF TELEPHONE CALLS

There will be no regular monitoring of telephone calls. In exceptional cases, where monitoring of a specific telephone call is requested by one of the parties, the other party or parties to the conversation must be made aware that the call is being monitored. Where mechanical recorders are used they must be equipped with a distinct warning tone (beep sound).

Personnel must be informed that no calls will be monitored without explicit affirmative instructions for each specific call.

DIRECT LOCAL & LONG DISTANCE IN-DIALING TELEPHONE SERVICE

In order to make effective use of the system and to expedite telephone calls into the Department, personnel should publicize the system by giving the code numbers (Area Code 202-OXford and the extension being called) to any individuals on outside private exchange numbers who previously dialed LI 5-6700 when calling the Department. Direct in-dialing calls may be transferred from one extension to another.

INTERDEPARTMENTAL DIAL SYSTEM

This system permits Government telephone users to make calls to extensions in other agencies without the help of a telephone operator. The method of operation is as follows:

1. All listings without asterisks are thru-dialing.
2. If the branch number is known, dial the agency code followed by the branch number. There will be no second tone following the code.
3. If the branch number desired is not known, dial the agency code, followed by "O" for operator information. Except on Code 13, Dial 1330; Code 196, Dial 196413; Code 14, Dial 1460; Code 183, Dial 18370.
4. Under the "through-dial" system, it is not possible to transfer a call to another extension. It is necessary to redial.

AUTOMATIC VOICE NETWORK (AUTOVON)

Most Defense installations throughout the United States, may be reached direct via AUTOVON. Place your call with the DOD operator by dialing "O".

LONG DISTANCE TELEPHONE CALLS

All Long Distance calls must be placed through the Department of Defense Telephone Operator.

Facilities are maintained within the Department of Defense for the most economic and efficient placing of long distance calls. To keep the cost at a minimum it is essential that controls be established and maintained by the military departments to insure that only official authorized calls of short duration be made thru the Department of Defense facilities. To speed your service on long distance calls placed through the DOD operator (Dial 0). Give the operator

1. The area code.
2. The telephone number you are calling.
3. Your number *when* the operator asks for it.

Refer to page IV for area code numbers most frequently called.

Policy Statement: Long distance calls will be routed by the DOD operators in the most economical means at the time the call is placed.

The Department of Defense is engaged in a cost reduction program aimed at achieving an annual rate of savings, approximating $4 billion, by Fiscal Year 1967.

All personnel, military and civilian, in the Department of Defense, are urged to join in this management improvement effort by submitting cost reduction proposals.

The Suggestion System provides the channels through which improvement proposals may be submitted and through which useful proposals may be given appropriate recognition.

Submit Your Suggestion Today
